PETITION TO WITHDRAW HOLDING OF ABANDONMENT

In August of 2009 I (Stephen) contacted the USPTO. I was told that in January of 2006 a change of correspondence had been received by the USPTO but it had not been filed, (all mail should have then been sent to our attorney). An office action was sent to the old address, in Sept of 2006. That mail from the USPTO was never received, and was returned undelivered, which resulted in the Patent being abandoned in April of 2007. I contacted the patent attorney in 2008. After he checked into it he said that the USPTO had made a mistake, (mail sent to wrong address) he did not tell me that the patent was in abandonment. He said that it just set us back some time. If the USPTO would have filed the change of correspondence, mail would have gone to the patent attorney, not to abandonment. We request a withdrawal of the holding of abandonment.
